**Human Resource
Development
Authority of
Cyprus**

In today's demanding economic environment, collaboration between businesses and the creation of clusters—groups of cooperating enterprises—in the furniture and woodworking sector in Cyprus is essential to address key industry challenges such as fragmentation, limited competition, and lack of technological renewal.

The seminar aims to act as a catalyst for building a collaborative ecosystem that enhances productivity and innovation, while also boosting competitiveness, sustainability, and long-term growth in the sector.

 **Seminar Dates:** November 22–23, 2025
